

## Naga Risk Management International

Discover how our expertise in risk assessment and mitigation can empower your organization to thrive in uncertainty.

### Our Company.

Naga Risk Management International Co.,LTD, (NRM-Intl), is a risk management consultancy company with over 30 years of experience in both the extractive, and oil & energy industries. Our expertise enables us to provide effective real-world security and emergency management solutions, ensuring the protection of people, assets, and overall business viability.

Leading our risk management endeavors, I am continuously inspired by our collective progress. Our commitment to safeguarding your interests is unwavering.

I pledge to uphold our standards of excellence, ensuring we remain your trusted partner in navigating business risks. Thank you for joining us on this path to innovation and security.

Our risk-based approach to security and emergency management enables resources to be focused where they provide real protection of your people and assets.

Pioneering resilience in a dynamic world, our mission is to respond with precision, providing unparalleled security and risk management expertise to safeguard lives and assets.

Michael Lockwood, Managing Director of NRM Intl.

# Our Expertise

## **1** Security Risk Management

We conduct comprehensive security risk assessments to identify potential threats and vulnerabilities, ensuring the protection of people, assets, and data.

## **2** Risk Mitigation Strategies

We develop and recommend security and emergency risk mitigation strategies to minimize the impact of identified risks, providing effective control measures.

# Scope of Services

## **Risk Assessment & Control**

We develop and implement high level security risk assessments and formulate security risk mitigation plans to effectively identify and control known security risks in an organization.

## **Strategy Development**

Crafting tailored strategies for effective security and emergency management

## **Technological Security**

Implementing state-of-the-art security technologies for operational security and safety

## **Risk Identification and Protection**

Expertise in pinpointing and safeguarding critical operational areas

## **Emergency Preparedness**

Developing and testing response plans for emergencies and security threats

## **Incident Response**

We develop and implement incident response plans to effectively manage crisis events, ensuring business continuity and minimizing impact.

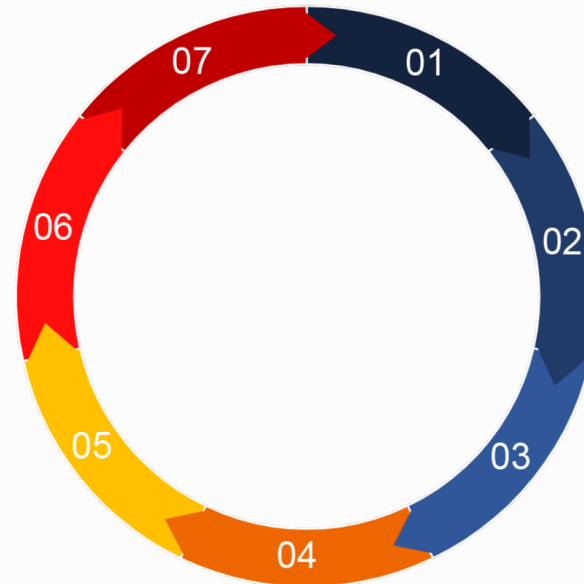

## **Equipment Supply**

We provide security and emergency response equipment from licensed global companies, along with after-sales support.

# NRM Risk 7 Step Risk & Emergency Management Process:

## NRM RISK 7 STEP RISK & EMERGENCY MANAGEMENT PROCESS:

- 01 Defining the credible risk scenarios applicable to the operation
- 02 Assess the suitability and reliability of the current active and passive risk response systems
- 03 Define/design the systems & equipment to manage the risks
- 04 Define and assess security and emergency response staff numbers and dimensions
- 05 Determine the competence required to manage the scenarios and operate the equipment
- 06 Define the training required to become and remain competent
- 07 Assess the management system to operate the process

# Client-Centered Approach

## 1 Goal Setting

We help businesses make informed decisions to protect their people, assets, reputation, and overall viability by providing goal-oriented risk management strategies.

## 2 Client Support

We ensure a client-centered approach, providing effective, workable security, and emergency management solutions to meet specific business needs.

# Enhancing Organizational Security

## 1 Improved Access Control

Implementing strict access control measures to protect people, assets and sensitive data

## 2 Regular Security Audits

Conducting periodic security audits to identify vulnerabilities

## 3 Employee Training

Providing comprehensive training to all security employees

## Risk Analysis

We provide a practical and holistic approach to identifying, analyzing, and managing risks across all aspects of an organization's operations.

## Recommendations

We offer recommendations on security measures and risk mitigation strategies, ensuring the protection of people, assets, and information.

# Emergency Preparedness and Response

Being prepared for emergencies is essential for any organization. We offer emergency response risk management strategies, training programs, and workshops to help you develop cost effective emergency preparedness and response plans. Our team of experts will work with you to ensure your business and your valuable employees have the knowledge and skills needed to handle any crisis situation.

# Crisis Management

1

## Guidance

We provide guidance during crisis events to minimize the impact on the organization, ensuring lives are saved and business continuity is maintained.

2

## Effective Plans

We develop and recommend workable crisis management plans to effectively manage unforeseen events.

# Training and Education

## Training Programs

We provide educational programs on security risk management, emergency response, and crisis management to educate employees and management how to effectively handle crisis situations.

## Workshops

We conduct workshops to train and educate employees on effective security risk management and emergency response techniques, utilizing hands-on desktop and real world scenarios to embed key learnings.

## Follow Up

We strive to ensure the valuable knowledge and training your business paid us to deliver has been retained, is current and effective in your organization.

Regular follow up on-site ensures this.
